#### **INNSBRUCK MEDICAL UNIVERSITY**

## **Department of Visceral, Transplant and Thoracic Surgery**

Director: Univ.-Prof. Dr. Stefan Schneeberger, Executive MBA HSG

# Ao. Univ.-Prof. Dr. Hubert Schwelberger

# **Curriculum Vitae**

## **Personal Information**

Name: Ao. Univ.-Prof. Dr. Hubert Schwelberger

E-mail: hubert.schwelberger@i-med.ac.at

Website: https://www.i-med.ac.at/tx-research/forschung/agschwelberger/

Birth date: 17.05.1962

Nationality: Austria
Family status: married

Position: Head of Molecular Biology Laboratory of VTT

## **University Degree(s)**

1985 Graduate engineer at the Technical University of Graz, diploma thesis on

"Phospholipid transfer in yeast"

1988 Doctor of Technical Sciences (PhD) at the TU Graz and thesis on

"Cloning, sequencing, disruption, and over-expression of the structural

gene of aldolase from Saccharomyces cerevisiae"

## **Professional Development**

1986 1988 Contract assistant at the Institute of Biochemistry of the TU Graz

#### **INNSBRUCK MEDICAL UNIVERSITY**

# **Department of Visceral, Transplant and Thoracic Surgery**

Director: Univ.-Prof. Dr. Stefan Schneeberger, Executive MBA HSG

1989	1991	Postdoctoral fellow at the Department of Biological Chemistry, School of
		Medicine, University of California Davis, USA on Initiation of protein
		synthesis in eukaryotic cells
1992	2002	University assistant in the laboratory for theoretical surgery of the II.
		university hospital for surgery of the University of Innsbruck
2002		Habilitation in molecular biology at the University of Innsbruck on
		"Structure and function of diamine oxidase
2003	2007	University lecturer in the laboratory for theoretical surgery at the University
		Clinic for General and Transplant Surgery at the Medical University of
		Innsbruck
2008		University lecturer and head of the Molecular Biology Laboratory of the
		University Clinic for Visceral, Transplant and Thoracic Surgery at the
		Medical University of Innsbruck

# **Research Emphasis**

Molecular and cell biology of yeast

Regulation of gene expression and protein biosynthesis

Structure and function of amine oxidases

Histamine and polyamine metabolism

Histamine intolerance and food allergy

Inflammatory and neoplastic intestinal diseases

Tumor biology, carcinogenesis, apoptosis

Ischemia/reperfusion injury in solid organ transplantation

#### **Publications**

79 original papers, 2 reviews, 10 book contributions, over 200 lectures at scientific conferences

Innsbruck, 26.04.2024
