

7th CIIT SCIENCE DAY

Tuesday, 27.11.2018, 2pm-6pm

Medizin Zentrum Anichstrasse

Keynote lecture: **Univ.-Prof. Nikolaus Romani**

Universitätsklinik für Dermatologie, Venerologie und Allergologie

„Catching up on Dendritic Cells“

In 2009, the 'Comprehensive Center for Infection, Immunity, and Transplantation (CIIT)' was founded to advance the interdisciplinary collaboration between science and teaching. Furthermore, the **CIIT** promotes scientific projects but also clinical management related to diagnostics, therapy and prevention of infectious diseases, the pathophysiology and management of systemic immunological and autoimmune disorders as well as new developments and clinical challenges in transplantation medicine.

We would like to invite you to the 7th CIIT Science Day. Please submit abstracts related to laboratory-based projects, clinical studies but also of interesting clinical cases for the poster session to **CIIT@i-med.ac.at**.

The deadline for abstract submission is **October 15th, 2018**. Please see attached file for details concerning abstract and poster guidelines.

We are looking forward to your participation.
With kind regards,

Doris Wilflingseder and Thomas Sonnweber

On behalf of the CIIT Speaker's Team
