DEPARTMENT OF
VISCERAL, TRANSPLANT AND THORACIC
SURGERY INNSBRUCK

Hepatobiliary Surgery Meeting incl. Expert Video Session

European Consensus Meeting for Preoperative
Liver Assessment before Hepatectomy

surger-i-nnsbruck

postponed

Thursday, 26th - Friday, 27th May 2022
Congress Innsbruck, 6020 Innsbruck, Rennweg 3

153rd Seminar of the Academy of Advanced Training of the Austrian Society of Surgery

Organizer

Univ.-Prof. Dr. Dietmar Öfner-Velano, MAS, MSc, F.A.C.S., Head of Department, Medical University of Innsbruck
Department of Visceral, Transplantation and Thoracic Surgery, A-6020 Innsbruck; Austria

Congress Presidents

Manuel Maglione, MD; Medical University of Innsbruck, Dept. of Visceral, Transplant and Thoracic Surgery, A-6020 Innsbruck
Stefan Stättner, MD; Head of Dpt. of General, Visceral and Vascular Surgery, Salzkammergutklinikum Vöcklabruck & Gmunden, A-4840 Vöcklabruck
Florian Primavesi, MD; Dpt. of General, Visceral and Vascular Surgery, Salzkammergutklinikum Vöcklabruck & Gmunden, A-4840 Vöcklabruck

Organisation

MMag. (FH) Linda Partl, surger-i-nnsbruck@congressorganisation.at, t: +43 650 2002103, f: +43 50 504 22602; www.congressorganisation.at

Conference venue

Congress Innsbruck, Hall Brussels, Rennweg 3, 6020 Innsbruck, Austria; www.cmi.at

Registration Resident / Trainees + ÖGC	€	-
Student Early & Late fee (ESSO/EAHPBA/ESSR-Members & Non-Members)	€	30,00
Dinner	€	50,00

The Freedom from constraints¹

**No wires -
no worries.**

We developed our **cordless ultrasonic dissector**, so surgeons can have more freedom of movement within their procedures and improved mobility[‡], which contributes to a safer OR.¹

[‡] 29 out of 33 surgeons surveyed after use agreed.

¹. Brogmus G, Leone W, Butler L, Hernandez E. Best practices in OR suite layout and equipment choices to reduce slips, trips, and falls. AORN J. 2007;86(3):384-394.

Accreditation

The meeting has been accredited by the **Austrian Medical Association** to provide 15 DFP-points.

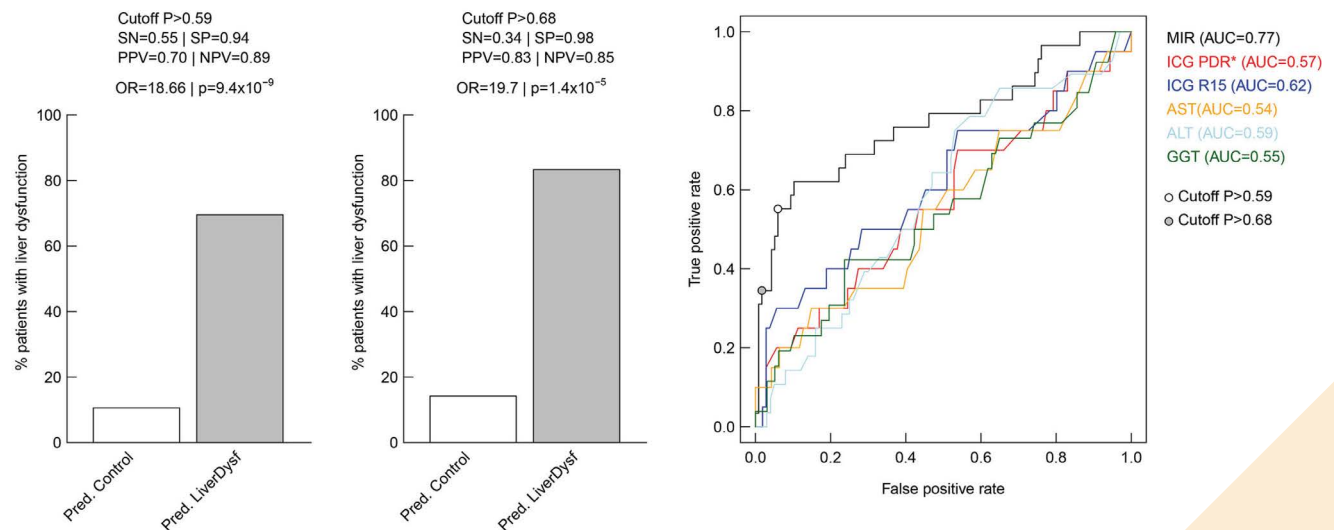

The Surger-I-nnsbruck 2022, Innsbruck, Austria, 26/05/2022-27/05/2022 has been accredited by the European Accreditation Council for Continuing Medical Education (EACCME®) with 11 European CME credits (ECMEC®s). Each medical specialist should claim only those hours of credit that he/she actually spent in the educational activity.

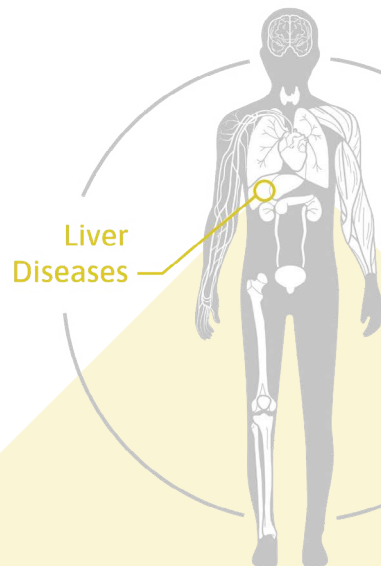

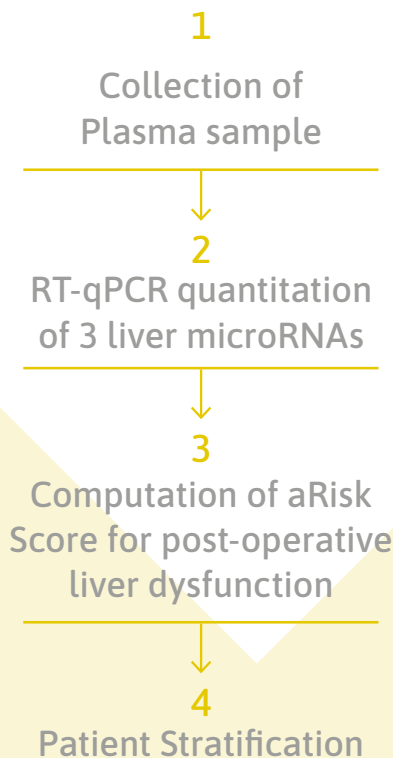

Through an agreement between the Union Européenne des Médecins Spécialistes and the American Medical Association, physicians may convert EACCME® credits to an equivalent number of AMA PRA Category 1 Credits™. Information on the process to convert EACCME® credit to AMA credit can be found at www.ama-assn.org/education/earn-credit-participation-international-activities.

is a **blood-based Biomarker** for the Assessment of **Liver Function** before Hepatectomy in patients with HCC, CCC, or mCRC

Thursday, 26.5.2022

08:30 - 10:30	General topics 1 - Liver tumor patients	Hall Brussels, Congress IBK
08:30 - 08:48	Preoperative imaging - current standards and future scenarios	Denecke T
08:54 - 09:12	How fit is the patient? How fit is the liver?	Schäfer B
09:18 - 09:36	Prehabilitation concepts in patients planned for liver resection	Truant S
09:42 - 10:00	The importance of the interdisciplinary tumor board	Malik H
10:06 - 10:24	Mebrofenin Scintigraphy to assess liver function prior major hepatectomy	Melloul E

10:30 - 11:00	Coffee Break	Foyer, Hall Brussels, Congress IBK
----------------------	---------------------	---

11:00 - 12:55	General topics 2 - Primary tumors of the liver	Hall Brussels, Congress IBK
11:00 - 11:18	Liver transplantation meets surgical oncology	Schneeberger S
11:24 - 11:42	Strength and limitations of interventional oncology	Bale R
11:48 - 12:06	Strength and limitations of minimal invasive surgery	Aldrighetti L
12:12 - 12:30	Hepatic prehabilitation - current concepts and future applications	Leclercq I
12:36 - 12:54	Liver regeneration - from understanding to implementing it	Starlinger P

13:00 - 14:30	Lunch Break	Foyer, Hall Brussels, Congress IBK
----------------------	--------------------	---

14:30 - 15:40	Video Session 1	Hall Brussels, Congress IBK
14:30 - 14:50	Ultrasound guided sculpturing of the liver	Procopio G
14:55 - 15:15	MIS of the liver - standard procedures	Diaz-Nieto R
15:20 - 15:40	Tips and tricks for intraoperative complication management in hepatic MIS	Fuks D

15:45 - 16:15	Coffee Break	Hall Brussels, Congress IBK
----------------------	---------------------	------------------------------------

16:15 - 17:25	Video Session 2	Hall Brussels, Congress IBK
16:15 - 16:35	Robotic liver surgery	D'Hondt M
16:40 - 17:00	Arterial and venous reconstruction in liver surgery	Maglione M
17:05 - 17:25	Biliary reconstruction	Öllinger R

19:00	Dinner	Hotel Innsbruck
--------------	---------------	------------------------

Friday, 27.5.2022

08:30 - 08:45	Introduction	
08:45 - 10:00	Consensus topic 1 - Indications and timing of liver function assessment	Congress IBK
10:00 - 10:30	Coffee Break	Congress IBK
10:30 - 11:45	Consensus topic 2 - Static blood markers for liver function assessment	Congress IBK
11:45 - 13:00	Lunch break	Congress IBK
13:00 - 14:15	Consensus topic 3 - Functional & morphological imaging	Congress IBK
14:15 - 14:45	Coffee Break	Congress IBK
14:45 - 16:00	Consensus topic 4 - Functional & morphological non-imaging tests	Congress IBK
16:00 - 16:30	Farewell	Congress IBK

Anti-CMV-Immunglobulin

Cytotect® CP

Kostbares Leben
schützen

 **Biotest**
From Nature for Life

Österreichische Fachkurzinformation. Bezeichnung des Arzneimittels: Cytotect® CP Biotest 100 E/ml Infusionslösung. Qualitative und quantitative Zusammensetzung: Cytomegalie-Immunglobulin vom Menschen (CMVlg). 1 ml enthält: Plasmaproteine vom Menschen 50 mg (davon mindestens 96 % Immunglobulin G), mit einem Gehalt an Antikörpern gegen Cytomegalie-Virus (CMV) von 100 E* (* Einheiten des Referenzpräparates des Paul-Ehrlich-Institutes). Jede Durchstechflasche mit 10 ml enthält: 500 mg Plasmaproteine vom Menschen (davon mindestens 96 % Immunglobulin G), mit einem Gehalt an Antikörpern gegen CMV von 1.000 E. Jede Durchstechflasche mit 50 ml enthält: 2.500 mg Plasmaproteine vom Menschen (davon mindestens 96 % Immunglobulin G), mit einem Gehalt an Antikörpern gegen CMV von 5.000 E. Verteilung der IgG Subklassen (Näherungswerte): IgG1 65 %, IgG2 30 %, IgG3 3 %, IgG4 2 %. Der Höchstgehalt an Immunglobulin A (IgA) beträgt 2.000 Mikrogramm/ml. Hergestellt aus Plasma menschlicher Spender. Vollständige Auflistung der sonstigen Bestandteile siehe Abschnitt 6.1. Anwendungsgebiete: Prophylaxe klinischer Manifestationen einer Cytomegalie-Virus-Infektion bei Patienten unter immunsuppressiver Therapie, insbesondere Transplantat-Empfängern. Die gleichzeitige Gabe von geeigneten Virustatika sollte zur CMV-Prophylaxe in Betracht gezogen werden. Gegenanzeigen. Überempfindlichkeit gegen den Wirkstoff (Cytomegalie-Immunglobulin vom Menschen) oder einen der in Abschnitt 6.1 genannten sonstigen Bestandteile. Patienten mit selektivem IgA-Mangel, die Antikörper gegen IgA entwickelt haben, da die Verabreichung eines Präparats, das IgA enthält, zu einer Anaphylaxie führen kann. ATC Code: J06BB09. Liste der sonstigen Bestandteile: Glycin, Wasser für Injektionszwecke. Z.Nr.: 238524. Rezeptpflicht/ Apothekenpflicht: Rezept- und apothekenpflichtig, wiederholte Abgabe verboten. Zulassungsinhaber: Biotest Pharma GmbH, Landsteinerstraße 5, D-63303 Dreieich. Weitere Informationen zu Dosierung, Art und Dauer der Anwendung, Warnhinweise und Vorsichtsmaßnahmen für die Anwendung, Wechselwirkungen mit anderen Arzneimitteln und sonstige Wechselwirkungen, Schwangerschaft und Stillzeit, Nebenwirkungen, Überdosierung, Pharmakologische Eigenschaften und Pharmazeutische Angaben entnehmen Sie bitte der veröffentlichten Fachinformation.
